

66/91/98

ISSUE CLASSIFICATION	
Class	Subclass

A black and white photograph of a long, narrow, dark object, possibly a piece of fabric or a strip of material, showing a textured surface and some internal structure. The object is oriented horizontally and appears to have a mottled or speckled texture. There are some lighter, irregular patches and lines visible within the dark area, suggesting a complex internal composition or a specific material type. The edges of the object are slightly irregular and show some fraying or wear. The overall appearance is that of a microscopic view of a material sample or a close-up of a textured surface.
